1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or make obvious a method for measuring particles in a glass substrate comprising, in addition to the other recited steps of the claim, the step of estimating whether a sum of respective scanned unit areas is within an allowed limit of an area of a glass substrate, and the step of returning to the recited camera shifting step if an answer from the estimating step is "No" or storing information on the particles in the entire glass substrate obtained by summing up the information on the particles in the respective scanned unit areas if the answer is "Yes".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Miyake (2003/0122731) is cited for disclosing an image processing system for detecting defects in a glass substrate. Choo et al (2005/0041243) is cited for disclosing a glass substrate test apparatus.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Pyo whose telephone number is (571) 272-2445. The examiner can normally be reached on Mon-Fri (with flexible hour), First Mon. off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David P. Porta can be reached on (571) 272-2444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
